To Whom It May Concern:

My campus had the wonderful opportunity of hosting Ms. Lynn Duncan with ID Theft Solutions of America, in our most recent staff meeting. My staff learned about the company's legal services that they provide to school personnel and their families and we also heard a little about identity theft and protect ourselves from those types of crimes. We were very impressed with the presentation. I had several teachers that signed up for the services that ID Theft Solutions of America provides. I have also had requests for them to return again to speak on other topics.

I am very pleased that we have Lynn Duncan as our representative and feel confident that she will take care of the people that enroll in the program. I have personally been a member of their services for eight years. I have only had to make a few calls to the company, but do feel secure in knowing that I can call them at any point for advice and assistance.

I appreciate the efforts that Lynn went to in getting the meeting and materials set up prior to the staff meeting this month and the follow up that she gave me afterwards. I look forward to a long working relationship with her in the future and welcome her to my campus to speak again.

Sincerely,

Dee Howard
Principal, Wimberley Junior High
