Dear Jason,

I just wanted to take a moment to thank you and your company for the services being provided to Streamline Technical Services. Many of our employees, including myself, have signed up for your Legal and Identity Theft Services. Your follow through, as well as, the informative updates have been extremely helpful.

I would recommend your services to any party looking to enhance their benefit package. The cost is minimal considering the protection you provide. The Compliance package that you assisted us with has really been an important part of us taking all the necessary steps to insuring that we are protecting all of our clients and employees data as much as possible. With new Federal Laws coming down on us every day it is hard for the medium size business to keep up with the constant changes; you have made the whole process very simple and easy to implement for all our staff. Thank you for a great and beneficial service.

Regards,

Lynn Bennett
President
