

**MATAGORDA REGIONAL**  
MEDICAL CENTER  
**Your Health. Your Hospital.**

November 16, 2010

ID Theft Solutions of America partnered with Matagorda Regional Medical Center in November 2009 at which time they brought to us their expertise regarding new compliance regulations, requirements and voluntary benefits.

They conducted an on-site risk assessment, trained all our employees about "Red Flag" policy with documentation to employee files, and provided identity theft and legal benefits on a voluntary basis via payroll deduction for our employees. Representatives continue to come monthly to meet with our new employees during our general orientation sessions in order to ensure that all new employees are trained, informed and given the same initial opportunity to participate in the voluntary benefits offered.

We have experienced professionalism in all areas of their company.

I would recommend ID Theft Solutions of America to assist and guide you on maintaining compliance with new regulations, requirements and benefits within your organization.

Sincerely,

Cindy Krebs  
Human Resources Director
